PROFILE

I'm a Front-End Developer creating responsive, high-performance web apps focused on security and user experience. With React.js and Next.js for server-side rendering, I build scalable, SEO-friendly apps. I work with RESTful APIs, JSON Web Tokens (JWT), and TypeScript to ensure secure, maintainable code. My goal is to deliver visually appealing applications that run seamlessly across devices.

PROFESSIONAL EXPERIENCE

Front End Developer

Alexapps

02/2024 – present

Alexandria, Egypt

(Remote)

- Collaborated with a cross-functional team to develop dynamic dashboards and SaaS web applications.
- Utilized Next14, TypeScript, and Material UI to enhance performance and user experience, ensuring robust and maintainable code through type checking and reusable components.
- Worked closely with RESTful APIs and JWT Auth tokens

SKILLS

- 🛠 REACT.JS / NEXT.JS
- 🌐 HTML / CSS / JAVASCRIPT (ES6+)
- 🚀 TYPESCRIPT / PUG / SASS / GULP
- 🎨 MUI / TAILWIND / BOOTSTRAP
- 📦 REDUX & REACT-REDUX / ZUSTAND
- ⚙ FRMER-MOTION

PROJECTS

Shoes Store (incomplete)

Skills: NEXT.JS, TYPESCRIPT & TAILWINDCSS

Developed a multi-language e-commerce store using Next14, TypeScript, and Tailwind CSS, featuring dark/light themes, multi-page layout, product search and filter, and JWT authentication.
